

DEMO OVERVIEW

The demo is a self-guided tour of Speak Agent. All you have to do to explore is to click the arrows in the gray text overlay near the bottom of each screen. You can leave the tour and click around, too!

The screenshot displays the Speak Agent web application. The top navigation bar includes a 'CONTACT SALES' button and links for 'PRO Account', 'Help', and 'Sign Out'. The left sidebar contains navigation links: 'Home', 'Wordlists', 'Lessons', and 'Classes & Students'. The main content area is titled 'Chance Experiments (7th Grade Math)' and includes a 'STUDENT PREVIEW' button and a 'COPY' icon. The 'Description' section states: '7.SP.5: Understand that the probability of a chance event is a number between 0 and 1 and how various values along the probability scale express the likelihood of an event occurring.' The 'Activities' section includes a 'Word Review' section with a 'Wordlist' titled 'Chance Experiments' and a 'Video' section with a video titled 'Cat Chance'. The 'Lesson Details' sidebar on the right shows 'Date Created: Sep 11, 2018', 'Status: Private', 'Language: English (U.S.)', 'Grade(s): 7', and 'Subject(s): Math'. The 'Tags' section includes 'statistics', 'probability', '7.SP.5', and '7.SP.C.5'. A bottom overlay with a gray background contains a welcome message: 'Welcome to our 7th Grade Chance Experiments lesson! From here you can preview how the lesson will appear to students. The school or district can control who can edit or assign a lesson.' and navigation arrows.

HOW TO ACCESS THE DEMO

To access our self-guided tour of Speak Agent, follow these steps:

1. Visit this link: <https://teach.speakagent.com>.
2. Choose **Teacher Sign In** at right.
3. Sign in using the email **demo** and the password **wordsmatter** (without any spaces or caps).
4. Navigate with the left-right arrows or follow the instructions to explore the demo account.
