

CORONAVIRUS HEALTH EDUCATION

For students in 3rd — 8th grade and their families to learn in depth about coronaviruses and how they work.

There are four steps to beating the coronavirus. Let's win together!

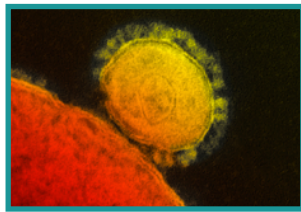

1

KEEP IT OUT

Learn how coronavirus passes from one person to another person — and what to avoid.

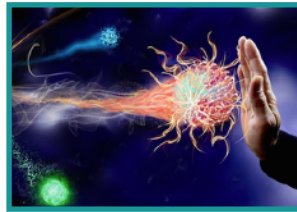

2

STOP THE INFECTION

Learn how coronavirus tries to infect cells inside your body — and how to protect them.

3

SLOW THE SPREAD

Learn how coronavirus spreads from cell to cell — and how to help your body fight it.

4

WIN VS. THE VIRUS

Learn how your body makes antibodies to beat the coronavirus — and how to make more.
